Specification	
Vinification	Unlike many Pinot Grigios at this level, which have up to 15% of inferior grapes such as Garganega or Trebbiano added, the Pure Pinot Grigio is made from 100% Pinot Grigio grapes, all picked from the fertile plains below Verona in the NE of Italy. Cool fermented in steel temperature controlled tanks and using indigenous yeasts, the wine is clarified post-ferment and held in tanks to preserve the natural freshness and vivacity of the wine.

Producer Overview	Rather than following the standard route of sourcing from the widely known group of Italian 'bottlers', we have developed a wonderful source of supply from a family owned estate in the area of Caprino Veronese, situated in the foothills of the Italian Alps 10km east of Bardolino. There is a quid pro quo however – we get wonderful estate grown fruit with a hand in the style of wine we want producing, but we don't name the winemaker or the estate. That's a fair deal! The 140ha estate is located at the foothills of the Alps and in close proximity to Lake Garda, which creates a unique microclimate with great temperature exchange between day and night during the harvest time. The soils and vineyard elevation also play roles in shaping the flavors and aromas of the grapes grown here. Read more online
